

Blood Meal

Overview:
High quality - **protein blood meal** derived from **poultry blood** from **EU-approved slaughter plants**. Ideal for use in **pet foods, fertilizers,** and the **shellfish industry**.

Processing:
For UK suppliers, all production is done in **DEFRA-approved Category 3 plants**, while our European partners follow EFSA standards and are members of EFPRA, ensuring the highest levels of safety, quality, and protein digestibility across all facilities.

Customization:
Shelf life of **8-12 weeks** can be extended with **antioxidants**, and packaging is available in **28-tonne bulk** or **1-2 tonne tote bags**.

Content	Range	Typical Analysis
Moisture	2-8%	4%
Crude Protein	82-90%	89%
Fat	1-10%	2%
Ash (Mineral)	1-6%	3%
