

Duck Meal

Overview:
High-quality **duck meal**, made from **cleaned, wet-rendered duck offal and carcasses**. This high-protein ingredient is sourced from **EU-approved poultry slaughter plants** and is perfect for **pet food** and **animal feed** applications.

Processing:
For UK suppliers, all production is done in **DEFRA-approved Category 3 plants**, while our European partners follow EFSA standards and are members of EFPRA, ensuring the highest levels of safety, quality, and protein digestibility across all facilities.

Customization:
Shelf life is **8-12 weeks**, extendable with **natural or synthetic antioxidants**.
Packaging options include **28-tonne bulk loads** or **1-2 tonne tote bags**.

Content	Range	Typical Analysis
Moisture	2-8%	5%
Crude Proteins	64-69%	66%
Oils	9-15%	13%
Ash (Mineral)	12-17%	15%
Protein Digestibility	82-98%	90%
Peroxide Value	<10 mEq02/kg	<5.0 mEq02/kg
Nutritional Profile
