

Pork Meal

Overview:

Pork meal is made from **rendered pork tissues**, which include both muscle and bone. It's rich in **protein** and **fats**, making it suitable for both **pet foods** and **animal feed**. It offers a balanced amino acid profile with essential nutrients for animal growth.

Processing:

For UK suppliers, all production is done in **DEFRA-approved Category 3 plants**, while our European partners follow EFSA standards and are members of EFPRA, ensuring the highest levels of safety, quality, and protein digestibility across all facilities.

Customization:

Available with a **8-12 week shelf life** and antioxidant options, pork meal is supplied in **bulk loads** or **tote bags**, as per customer requirement
