

## Wheat Bran Pellets

**Overview:** A by-product of wheat milling, consisting of the outer layer of the wheat kernel. Moderate in protein and rich in fiber, vitamins, and minerals.

**Processing:**

- Wheat bran is collected during wheat flour milling.
- It is compressed into pellets for ease of transport and feeding.

**Applications:**

- Used in cattle, sheep, and pig diets as a fiber source.
- Enhances gut health and digestion.
- Often combined with other energy- or protein-rich feeds.

**Customization:**

Shelf life at humidity up to 14,0% - 6 months, at humidity 14,1-15,0% - 3 months, subject to storage conditions. Store at ambient temperature not higher than 25°C and relative air humidity not higher than 70%.

Standard packaging options include 1 tonne tote bags. On request 25 and 50 kg bags.

Content	Range	Typical Analysis
Moisture	10-15%	13%
Crude Protein	14-17%	16%
Crude Fat	2-4%	2%
Total Ash	4-7%	6%
